

WE ARE HERE TO INSPIRE

SIGNATURE CONGAS & BONGOS

The Artist Series designed with William "Kachiro" Thompson delivers a versatile and expressive percussion family that covers congas and bongos under a single, powerful signature sound. Whether built in warm, resonant New Zealand Pine with the striking Blue Wave finish or in resilient, bold Premium Fiberglass with the vivid Electric Sky shell, each instrument preserves the tonal range and projection Kachiro demands in studio, stage and recording settings.

All drums are outfitted with REMO® Black Calfskin Skyndee® heads, chrome-hardware, SSR-rims, strong tuning lugs, and Meinl's "Resonance Shaping Area" to control overtones and ensure balanced delivery – even in dynamic ensemble contexts. From the deep growl of the conga to the sharp crack of the quinto, and the cutting interplay of the bongos, every piece responds with nuance and clarity.

The Blue Wave / New Zealand Pine instruments offer rich low-end warmth and woody complexity, bringing out lush tones perfect for traditional Latin grooves, while the Electric Sky / Fiberglass versions give enhanced durability, sharper attack, and reliable consistency in any climate.

Designed for the modern percussionist who moves easily between styles – Salsa, Afro-Cuban, Latin Jazz or Fusion – this line combines aesthetic flair, rugged build, and artistic voice in every drum.

Kachiro Thompson

From Santurce, Puerto Rico, **William "Kachiro" Thompson** was one of the most in-demand conga and bongo players of his time. As a prolific recording and touring artist, Kachiro relied on drums that delivered in a wide variety of musical situations. Whether indoors or outdoors, in an intimate venue or a large stadium, in the studio or on tour, Kachiro sought instruments that felt right in his hands and transmitted the nuances and intensity of his playing.

With more than 500 recordings throughout his remarkable career, Kachiro's sound and playing style became a staple in modern salsa music, especially in salsa capitals like San Juan, Miami, and New York. The Artist Series Congas and Bongos by Meinl were the perfect match for Kachiro's vision – both in appearance and sound. Their elegant shape and rich tone accompanied him through countless performances and recordings, always delivering the expressive power he was known for.

William "Kachiro" Thompson will be remembered not only for his extraordinary talent but also for his lasting impact on the world of Latin music.

Forever in our hearts.

SIGNATURE CONGAS, BONGO & COWBELLS

Created with Grammy-winning percussionist Diego Galé, this signature line brings his unmistakable sound to a complete family of instruments. The Midnight Star fiberglass congas and bongos deliver a brilliant mix of cutting projection and warm, balanced tone. Outfitted with REMO® Black Calfskin Skyndeeep® heads, chrome hardware and Meinl's SSR-rims, they respond with clarity and depth – ideal for both live performance and studio work. Adding to the set, the Royal Gold Cowbells provide essential accents: the Timbale Bell with its deep, powerful drive, and the Cha-Cha Bell with a bright, crisp attack. Both are built for durability and stage presence, complementing the drums with their rich metallic voices.

Together, these instruments embody Diego Galé's musical vision – modern, versatile, and crafted for percussionists who demand character and precision in every note.

Diego Galé

Latin Grammy winner, producer, composer, musician and percussionist **Diego Galé** has devoted his artistic life to learning Afro-Cuban music and finding ways to integrate it into his own special style. Diego started playing on bongos at an early age, later adding congas. The Meinl Percussion Diego Galé Artist Series instruments are just what Diego needs in terms of comfort, look, and sound. Their sound is rich and dynamic, full of popping highs and warm lows for both studios and live situations.

- INCLUDES** Accessory pouch
L-shaped tuning key
Tune Up Oil
- COLOR** **NT-M:** Natural, matte

Luis Conte's genius stems from his ability to integrate the powerful rhythms of his native Cuba with the needs of American pop music. His long and storied career has included numerous Hollywood film scores and mega-successful albums with Madonna, Ray Charles, Phil Collins, Santana, Shakira, Jackson Browne, Sergio Mendes, Cachao, and a multitude of other artists. All of Luis' needs have been met and exceeded with the Meinl Artist Series Luis Conte Congas. They combine the charm and sound of traditional Cuban drums with modern features and innovations. These congas are equipped with traditional rims that are mounted as close to the shell as possible. When combined with Meinl's True Skin Buffalo Heads, they deliver an even more controlled sound.

Diego Camacho

Born in Cali, Colombia, **Diego Camacho** is a complete percussionist with a deep-rooted passion for music that began in his early years. His musical journey was inspired by his uncles, who indulged in percussion as a cherished pastime during family gatherings. Diego's fascination with percussion instruments blossomed during his school days, leading him to pursue formal studies in the art. In a remarkably short span, he found himself performing with local orchestras, solidifying his place in the music scene.

Alexandra Alban

Born in the city of Pasto, Colombia, **Alexandra Alban** started her musical journey at a very young age. She began as a trumpet player for different groups from her hometown and also pursued singing, where she won several national competitions. It was when she moved to the city of Cali, Colombia, that she began her career as a percussionist. Playing for multiple ensembles and groups around the city, she strengthened her talent as a percussionist and grew as a musician overall.

7 PERCUSSION BLOCK LOW PITCH

The great about the Meinl Percussion blocks, besides their ability to stand up to heavy playing, is that they're multi-functional. These blocks are a vital tool for percussionists playing intricate Latin inspired rhythms and drummers laying down grooves on a set. Use them to establish a clear tempo in a marching drum line, and let their sound be heard from across a football field. Their clear sound projects with a "knock" effect that has no harsh overtones or unwanted ring. Their special feature includes a mount that may be re-positioned either at an angle or on one of three sides of the block to allow for optimal placement. The 3/8" mount fits on any standard percussion rod. These blocks are made from high density PE plastic, so they can be played anywhere, indoors or outside.

SNARECRAFT CAJONS & CAJON PEDAL

1 SNARECRAFT CAJONS

Meinl Snarecraft Cajons combine articulate rhythmic punctuation with a warm tonal quality to give players a focused sound and wide dynamic range. Made of Baltic birch wood, these cajons respond with a punchy low end thud and crisp slap tones.

SIZE 11 3/4" W x 19 3/4" H x 11 3/4" D

MATERIALS Resonating body: 7-Ply (9 mm)
Baltic Birch (*Betula pendula*)
Frontplate: Baltic Birch (*Betula pendula*)

FEATURES Dual internal fixed snare wires
Baltic birch construction
Rounded corners for added comfort
Rubber feet and rear sound port

FINISHES **BLB** Frontplate: Blue Burst
BRB Frontplate: Brown Burst
GRB Frontplate: Green Burst
RDB Frontplate: Red Burst

2 PROFESSIONAL LOW CAJON STAND

Designed for the traditional cajon player, the Meinl Percussion Professional Low Cajon Stand offers the perfect playing position without the need to lean forward. Ideal for seated performance, this stand allows you to maintain a healthy, upright posture, reducing strain on your back while still enabling a fully traditional playing stance.

MATERIALS Chrome plated steel /
Black powder coated steel

FEATURES Upright posture while playing
Perfect for traditional seated cajon performance
Sturdy, low-profile design keeps your cajon secure

3 PROFESSIONAL CAJON PEDAL

Connect with your cajon on an entirely new level with the Cajon Pedals from Meinl Percussion. These pedals leave your hands unrestricted to play patterns while keeping steady kick drum rhythms beneath. The soft beater and cradle-like mount combined with adjustable spring tension gives you a buttery and stable feel beneath your foot.

MATERIAL Steel

FEATURES Position anywhere for optimal playability
For right and left-footed players

TAMBOURINE HIHAT & LAPTOP TABLE STAND

2 TAMBOURINE HIHAT

The two-piece Tambourine Hihat works just like a pair of hihat cymbals; the bottom rests on your hihat seat, and the top attaches to your hihat pull rod. Play like hihat cymbals with foot and drumstick notes. Four center posts keep the two pieces aligned for optimal response. Its bright and controlled sound mixes great with a low volume cajon/percussion set where cymbals might overpower, or use as an auxiliary tambourine hihat on a full drum kit. The sturdy steel frame handles drumsticks for long-lasting use. Equipped with stainless steel jingles that produce a shimmering tone (8 pairs top, 8 pairs bottom). 6 3/4" across x 4 1/4" tall. Designed in Germany.

SIZE 5"

MATERIAL Stainless steel jingles

FEATURES Top and bottom pieces work like hihats
Great for low volume kits
Sturdy steel frame

3 LIGHT LAPTOP TABLE STAND

Light, travel-friendly laptop stand with foldable legs. Holds laptops up to 16". Height adjustable.

SIZE 14 1/2" x 10 3/4"

MATERIAL Aluminum

FEATURES Holds laptops up to 16"
Fabric anti-slip surface
Height adjustable
Foldable legs

BIRD & WATERFALL SHAKERS

2 BENDO BIRD SHAKER

The Meinl Percussion Bendo Bird Shaker, adorned with 40 natural Bendo seed nutshells, emits a crisp, clear sound reminiscent of gentle bird calls. Its lightweight design and comfortable handle make it perfect for adding subtle rhythmic textures to acoustic sets, meditation sessions, or ambient soundscapes. This shaker invites musicians to infuse their music with a touch of nature's harmony.

MATERIAL Bendo seed nutshells

FEATURES Durable cord

Realistically imitate the sound of a flock of birds

Bright sound with big dynamic range

COLOR Brown

3 PANGI WATERFALL SHAKER

Crafted from 40 natural Pangi seed nutshells, the Meinl Percussion Pangi Waterfall Shaker produces a deep, earthy sound that resonates with authenticity. Its cascading design allows for dynamic rhythmic effects, making it ideal for both live performances and studio recordings. The ergonomic handle ensures comfortable playability, inviting musicians to explore a range of sonic textures.
