TAMA STAR WALNUT

Lacquer Finishes

STAR is the flagship line for TAMA drums. It takes the knowledge and research we cultivated for the Starclassic series to the next level, by reexamining every detail to enhance shell resonance. Walnut has long been favored by furniture makers for both its beauty and durability. As a drum shell material, Walnut's naturally EQ'ed tone has been praised by the drum community for both the stage and the studio. The STAR Walnut shells project booming low end with enough cut to be heard through any mix.

STARCLASSIC MAPLE

Exotic Finishes

In the '80s TAMA's Superstars and Imperialstars reigned supreme - the perfect drums for the times. But TAMA's builders and designers wanted something that transcended trends, something timeless - drums that understood a player's passion and allowed the expression of every genre, style, mood, and technique. They created Starclassic Maple drums...and ignited the thin-shell revolution. And now the Exotic Finish line offers beautiful, one-of-a-kind exotic wood exteriors for that extra luxurious touch.

Numerous options are available to meet the varied and critical needs of professional drummers including a selection of about 30 different shell sizes. Starclassic Maple also features three shell hardware finishes to choose from: Black Nickel, Chrome and Smoked Black Nickel. Starclassic Maple is simply an unprecedented combination of sight and sound.

STARCLASSIC WALNUT/BIRCH

Lacquer Finishes

Exploring limitless possibilities, our result in the wake of countless experimentation came in the form of the Hybrid Shell Walnut/Birch: combining the superior quality warmth and mid to low frequency tone of the increasingly popular and truly unique Walnut, with the well-defined and uncompromisingly solid attack of Birch.

Whilst we successfully preserved their unique sonic trademarks, the characteristics of both Walnut and Birch blend to persuade a very focused sound that would define itself with great distinction within a musical ensemble; married with controlled sustain and clarity; all sealed with an undeniably palpable feeling of warmth and resonance when performed.

SUPERSTAR CLASSIC

Exotic Finishes

For more than forty years, the Superstar name has stood for groundbreaking design, superior build quality, sterling tone, and clear projection. Superstar Classic once again upholds tradition by raising the bar for discerning drummers—and remarkably—does it while also lowering the price. Drawing on Superstar of the past, its classic TAMA T-shape badge and streamlined low-mass single lugs point to the simpler state of art of the 70's, while the ingenious Star-Mount system and the thinner gauge 100% maple shells eclipse anything in its class.

MIRROR ROD

TMR1000

The Mirror Rod is a double pedal connecting rod designed to eliminate play and deliver an overwhelmingly smooth playing experience. By utilizing ball bearings, lightweight materials, a streamlined design, and concentrating the weight at the central axis, an extremely precise motion is achieved, eliminating pedal lag or play. An extreme ease of operation is achieved by a simplified pedal attachment and length adjustment design.
